THE NEW CACTUS DAHLIA "GEO. L. STILLMAN," AND ITS ORIGINATOR

The accompanying illustration is from a photograph taken to demonstrate what the necessary quantity of water will do for a dahlia in a dry time. After one flower had nearly opened on this plant it appeared to come to a standstill. Buds died, the foliage grew bushy, lacked a lively color, and no more buds appeared. I immediately pulled up a ridge of soil a little away from the plant, forming a reservoir that held two pails of water. The plant was then supplied with four or five ten-quart pails of water every third day until rain came.

When this photo was taken there were seven full flowers, two half open, and nine buds that showed the color of the flower more or less. Three of these flowers measured 7 inches in diameter and all the others over 5 inches.

Very few people realize the quantity of water needed to carry a dahlia through a dry period. Not only does a dahlia absorb the moisture, but the dry ground around also draws on the supply.

Introductory

First of all I wish to thank my customers and friends for favoring me so liberally with their orders the past season, and for the many letters of appreciation of my efforts to please them.

I would thank you for informing me if you are not pleased and I would also thank you for telling others when you are pleased with my stock.

I solicit your continued patronage, and I assure you that I shall endeavor to please every person who intrusts his orders, whether large or small, to my care.

The dahlia season this year, as far as my experience is concerned, was very favorable in the early part, but later it was the reverse of the year previous, being very dry throughout September.

The killing frost, which came about three weeks earlier this year than the previous one, played havoc with late planted stock and prevented me from making exhibits at some of the late dahlia shows where I usually have exhibited.

However, I succeeded in capturing nearly all the first prizes I entered for at the various dahlia shows that I attended.

TO THE BEGINNERS, or those who are not familiar with the culture of the dahlia: It would be a great pleasure to have a long talk with you on the subject of growing dahlias, the one flower of which I have made a study for years, and which I grow exclusively, and of the pleasure and pastime derived from their care, from the time they are planted until the harvesting of the bulbs in the fall.

First, the new plant appears above the ground; then the leaves begin to unfold, and the plant begins to take on the shape of a small tree.

In an amazingly short time a bud will be seen. Then your interest and curiosity will increase as you daily watch the growth of the bud and the unfolding of the petals as they open to view a most marvelous combination of bright and glowing color that no plant except the dahlia has ever produced. As the plant increases in size, and the branches appear, buds will be seen on every branch, and branches from branches start, and more and more buds grow, and more flowers, until the whole plant, nearly as high as your head (and some times higher), is covered with the beautiful symmetrical flowers.

No description on paper or imagination has ever fully pictured the beauty of the flowers of the dahlia, or the combination of the colors brought out in the new creations of this popular flower.

I have endeavored to give you a few hints on the most important points of dahlia cultivation, which can be found on another page of this catalogue, and hope it will be of service to you.

Kindly acknowledge the receipt of this catalogue that I may be sure that I have your correct address on file.

Do not hesitate to order on account of distance, for bulbs go safely by mail to any part of the United States, and foreign countries.

A cordial invitation is extended to all dahlia admirers to visit my gardens during the flowering season.

GEORGE L. STILLMAN,

Westerly, R. I.

DAHLIAS ARE MY SPECIALTY

I grow no flowers except dahlias and give my whole attention to originating and cultivating the very choicest varieties that can be produced of this most popular flower.

There are no plants that can be grown entirely in the open that produce as many large and exquisite flowers, and of so many beautiful shades and varied colors as the Dahlia.

They not only bloom freely, but bloom continually until killed by frost.

Dahlias are especially adapted to landscape gardening, and on large estates, where an endless variety of styles and colors can be grown. For table, house and church decorations dahlias stand preeminent.

Since the introduction of the new Cactus Dahlias, the miniature Pompons, the massive giant Decorative and Show Dahlias, and the mammoth Paeony-flowered or Art Dahlias, the dahlia has increased rapidly in favor and popularity wherever once introduced, until now they are the most desirable and most popular garden flower. The fact that they are grown entirely in the open and without the assistance of a greenhouse enables everyone to grow them who has a few feet of garden soil. They are produced in almost every color imaginable, even a foliage green.

HERE IS A POINT WORTH CONSIDERING. Why not buy your dahlias of the person who makes a specialty of dahlias and who grows them exclusively?

I receive numerous inquiries every year as to the best fertilizer for dahlias and where it can be obtained.

FROM MY OWN PERSONAL EXPERIENCE I find that manure from the cow or sheep stable is the best for dahlias, and in order to make it convenient for my customers to obtain this kind of fertilizer, I have procured a supply direct from the stockyards. It is absolutely pure and thoroughly kiln-dried and pulverized, and all germs of grass or weeds are destroyed in the process. It is put up perfectly dry in 100-pound bags, which is the most convenient form for shipping and handling. It is so dry that it is nearly odorless and easily handled. Price for the Cattle Manure, \$1.50 per bag; 5 bags, \$6.75; 10 bags, \$12.50. Price for the Sheep Manure, \$1.75 per bag; 5 bags, \$8.00; 10 bags, \$15.00.

On the inside of the front cover page is a partial view of one of my fields containing over four acres of dahlias. This picture alone should convince the most skeptical that they can grow dahlias successfully.

POINTERS ON GROWING DAHLIAS

There are always some people who do not succeed in growing dahlias with their first season's experience, and are naturally very much disappointed. To those I wish to say that it is not due to a fault of mine or of the bulbs, but is due wholly to your method of cultivation, kind of soil, or weather conditions. A glance through the hundreds of letters I receive from pleased, enthusiastic people who purchase their stock from me is positive proof that my stock is without fault. Exercise a little patience and a whole lot of good, common sense, and you will grow as nice dahlias as anyone.

Heavy Soil and Coal Ashes:—I receive frequent letters from people who plant their dahlias in heavy soil and they produce no flowers, but an abundance of foliage. If you have no light soil you should treat it as follows: Spade in two parts coarse coal ashes to one of soil, to the depth of 18 to 24 inches, and then plant as per directions elsewhere. Dahlias will do better in a heap of solid coal ashes than in heavy loam. Wherever you plant them be sure to use plenty of fertilizer and do not forget to water the plants in dry weather. See following directions and also directions on page — for watering.

Do not select rich, deep, heavy soil on which to plant your dahlias. Dahlias need light soil with good drainage. The kind of soil recommended for a peach orchard is the best for dahlias, viz.: a hillside, or often a stony knoll is selected. If weak soil is used, an increased amount of fertilizer should be used, and if the season is dry a good quantity of water should be supplied.

Watering with a garden hose is a help in dry, hot weather, if enough water is used, but will never wholly substitute for a good rain.

A good method of watering is to make a basin-shaped mound of earth around the plant, about two feet in diameter, and into this basin turn three or four water pails full of water as often as every three or four days.

Heavy Soil with clay sub-soil will usually produce an abundance of foliage and few or inferior flowers. Fertilizers from the cattle or sheep stable are best, and one to two quarts should be applied to each plant under the bulb when planted.

The ground should be spaded or plowed to a depth of about 10 inches. When the soil has been properly prepared, and the hole dug six inches deep in which to plant the bulb, the fertilizer should be put in and well mixed with the soil.

Then the bulb should be laid down flat, and covered to a depth of 4 to 6 inches.

Never stand the bulb on end in planting.

Plant the hills at least 3 feet apart. Give them plenty of room, and plant them where they will have plenty of sun.

Dahlias do best alone by themselves out of reach of roots of shrubs or trees.

Keep the ground well cultivated and free from weeds. A frequent stirring of the surface is very beneficial. An application of some standard fertilizer raked into the surface of the soil around the plant two or three times during the season will be very helpful to the development of the flowers.

Never leave more than one or two stalks in a hill. You will have better plants and larger flowers if you will allow only one sprout to grow.

Stakes may be used to advantage to prevent plants from breaking down.

For early flowering they may be planted any time after May 1st, or as soon as all danger from frost is passed.

Some people have an idea that the larger the bulb the better plant it will make, but this is not the case. A small bulb is just as good as, and in many cases better than, a large one.

CARE OF BULBS IN WINTER. After the frost has killed the foliage, lift the clumps with a spade fork and allow them to dry in the sun about half a day. They should then be stored in a place free from frost. If an old-style cellar without cement bottom or heat, they need not be covered, but if cemented and heated by furnace, they should be covered with earth, or put into a tight box covered with papers and cloth to keep the air from them and thus prevent too much shriveling.

If dahlia sprouts get too long at planting time, CUT them off near the base, and they will come again and make a better plant than if the long sprout is used.

DIVIDING THE CLUMPS. When you are ready to plant, the clumps can be easily divided by using a sharp knife and hammer. By this time you can readily see where the sprouts are, and one of these left on a bulb is all that is necessary to make a nice plant, and is better than more.

Remember, if bulbs are received before you are ready to plant them, cover them with moist earth to keep them from drying up.

GENERAL INSTRUCTIONS

IT IS IMPORTANT THAT YOU READ THESE CAREFULLY!

FIRST OF ALL. Send me your order as soon as you receive my catalogue, as the demand for some varieties often exceeds the supply, and those who order early are less liable to disappointment than if they waited till the rush at the time of planting. **ORDER EARLY.**

If you do not want to spare all of the money to send with the order, send the order along, together with one-quarter of the amount as a guarantee of good faith, and the balance can be remitted when you receive notice that your order is ready to ship.

Customers who are not personally known will be notified when to remit the amount of their bill.

Bulbs are shipped as soon after April 1st as convenient, unless otherwise specified.

When sending orders use the Order Blank furnished with this catalogue. Any number of additional Order Blanks may be had upon application. When filling out the Order Blank, be sure to fill out the Second Choice column as well as the First Choice.

It is well to mention the varieties that you are willing to have substituted in case some of those selected are all sold out. Or, if requested, I will select such varieties as will substitute to best advantage. Otherwise, money sent for such bulbs will be returned to the sender.

SIZE OF BULBS. Some varieties of dahlias always produce very small bulbs (or tubers), while other varieties make large ones. So do not consider small bulbs as worthless, for they are equally as good as large ones.

I GUARANTEE EVERY BULB I SELL. The utmost care is always exercised in selecting every bulb I send out, and every one is believed to have, at least, one good sprouting eye that will produce a good plant under proper care.

Bulbs to be replaced after June 1st will be booked for shipment the next season only, and in all cases the bulb to be replaced must be returned.

I guarantee all bulbs to be true to name and sure to grow at the time they are sent out, but I cannot guarantee bulbs to grow if kept in a dry place a long time before planting. **UNPACK IMMEDIATELY ON RECEIPT.**

The best way to send money is by registered letter, money order or express order.

Do not hesitate to send small orders. An order for one bulb will be as carefully filled as an order for one thousand.

TERMS: Cash invariably in advance, or C. O. D. On all retail orders fully paid for in advance I will prepay carriage to any part of the United States. This does not apply to special offers.

ATTENTION. Orders taken in the fall of 1914, not fully paid for, will be sent C. O. D., unless previous arrangement has been made.

All bulbs not fully paid for will be sent C. O. D., unless other terms have been agreed upon.

Do not delay ordering until the time to plant, as many varieties may be sold out before that time. **ORDER EARLY.**

If bulbs are received before it is convenient to plant them, they should be covered with moist earth until planted.

I use the utmost care to prevent errors in labeling and packing, but if an error does occur, kindly notify me, that it may be rectified immediately.

Address all orders and communications to George L. Stillman, Dahlia Specialist, Westerly, Rhode Island.

CLASSIFICATION OF DAHLIAS

CACTUS DAHLIAS are distinguished by their long, twisted or pointed petals.

DECORATIVE DAHLIAS include loose-flowering varieties which are full or nearly full to the center with broad, nearly flat petals.

SHOW DAHLIAS apply to those varieties producing large, round, quilled, well-formed flowers, showing only solid colors, but many frequently have shaded tips.

FANCY DAHLIAS include nearly all round, variegated, quilled varieties, although the lines are not definitely drawn between the Show and Fancy varieties.

POMPON DAHLIAS. This class embraces the small, round, miniature dahlias, the plants of which are generally of dwarf habit.

PAEONY-FLOWERED, or ART DAHLIAS, are of immense size and have two or more rows of petals, and are generally of a flat and twisted formation.

SEMI-SINGLE DAHLIAS, or DUPLEX, are those that have more than nine florets and less than three rows of florets.

SINGLE DAHLIAS have but a single row of petals.

COLLARETTE DAHLIAS. This class of dahlias has one row of petals, like single dahlias, and in addition has a collarette of small petals around the yellow center of the flower.

NOTE—There are different opinions about the division of some classes, and the above rules apply in general terms.

Have you read the preceding pages carefully? Do not hesitate about ordering Dahlia Bulbs on account of distance, for they go safely by mail or express to any part of the world.

FLOWERS OF THE GEO. L. STILLMAN, SHOWING LENGTH OF STEM

NEW DAHLIAS OF SUPERIOR MERIT FOR 1915

These Collections of Dahlias Are Put on the Market this Season for the First Time, Having Been Selected From a Lot of Over 2000 Seedlings Which I Grew in 1913 and Which I Have Given a Thorough Test the Past Season.

CACTUS

GEORGE L. STILLMAN No. 67—This wonderful new Cactus Dahlia is of a very rich, light, velvety maroon in color. The flowers are very large and often measure 7 or 8 inches in diameter, and are borne on extremely long stems as shown on opposite page. These two stems actually measured respectively 26 and 30 inches in length. On a row of 20 of these plants the first six flowers that came out had stems as follows: 16, 18, 22, 22, 26, and 30 inches in length, and each flower measured more than six inches in diameter. The form of this flower is perfect with a decidedly full center, and the lasting qualities are unsurpassed. The plant is a strong grower and often attains the height of 8 feet. For cutting for huge bouquets or for flat table decoration this Dahlia is without equal. Samples of this flower with a few of the "Indian Family" were on exhibition at the Newport, R. I., Dahlia Show as new seedlings, and I was awarded a first class certificate on them. At Hartford, Ct., I entered one of the George L. Stillman as the largest flower in the show and won first prize. At New Haven, Ct., I was awarded a first class certificate on this dahlia as a seedling. At the New York Horticultural Society's Dahlia Show I exhibited 20 blossoms of this dahlia and was awarded a first class certificate. I am proud to give it my own name, believing it to be the best Cactus Dahlia that has ever come under my observation. Price, Plants where bulbs cannot be supplied **\$5.00 Each**

LOVELINESS

NEW PAEONY-FLOWERED DAHLIAS FOR 1915

THE INDIAN FAMILY

The Most Wonderful Set of Paeony-Flowered Dahlias Ever Originated

These superb, new, giant, Paeony-flowered dahlias were originated by myself in 1913 through very careful experimental processes with the largest and most superb colored dahlias in existence. I have given them a thorough trial the past season and find them to possess the most artistic and unusual colors ever seen in dahlias. There are no two alike in the group, and all have fine stems for cutting.

You should own the whole "Indian Family." The stock is limited and the person lucky enough to own the entire "Indian Family" will have the most beautiful and complete set of new Paeony-flowered dahlias obtainable.

Wherever these new dahlias have been exhibited at the numerous dahlia shows the past season they have been the wonder and admiration of all.

OSCEOLA—No. 39. Very light canary yellow. An enormous flower and beautifully formed. The most delicate shade of light yellow imaginable. This is a very free blooming dahlia and should be seen to be appreciated.

Price \$5.00

MIANTONOMI—1022. Deep amber buff with a tint of salmon pink. An entirely new and most desirable color for the dahlia. This new and attractive color has been the admiration of all who have seen it. Many years of careful experimenting were required in producing this unusual shade. It attracts the eye of everybody.

Price \$5.00

QUEEN ESTHER — 103. Color, "Du Barry," that dazzling new shade of red. An enormous, large, full flower and a beautiful rich color. The small twisting florets in the center of this flower give it a most unique appearance. A wonderfully free blooming dahlia.

Price \$5.00

BLACK HAWK—54. Deep velvety maroon. The darkest flower in the Indian Family. The colorings are extremely rich and the flowers are large. The petals are broad and twisted to a point at tips. Is an extra free bloomer.

Price \$3.00

CANONCHET—66. An entirely new color shading on a grayish salmon. Petals are long and rolled to a point at tips. Slightly incurving. Small petals curled up around the yellow center in very unique manner. This is a large flower and the long petals are dotted with slightly deeper small blotches of pink and suffused with a pale gold which glistens faintly.

Price \$3.00

CANONICUS—1036. Beautiful dark cerise. A very unusual shade and no other dahlia like it in shape and size has ever been produced. A large full flower.

Price \$3.00

Send in Your Order Early

CANONCHET

MASSASOIT—1021. Variegated. This flower is very showy and attractive. Petals being a dark maroon heavily tipped with white give the flower the appearance of being about one-third white and two-thirds maroon shade. Not as large a flower as some of the other Paeonies, but very attractive.
Price \$3.00

MINNEHAHA—78. Light red. This is an extra large, heavy, full flower with broad petals which are slightly pointed and twisted at tips. The plant grows quite high and being a very free bloomer is one of the most showy dahlias of the "Indian Family."
Price \$3.00

MINNEWAWA—76. Bright cerise red. Base of petals yellow with white disk around the center. Balance of petals heavily clouded and tipped white. Very striking combination of colorings.
Price \$3.00

NARRAGANSETT—1033. Rich shade of dark scarlet. This flower should be seen in order to be appreciated. It is large, finely formed, and a very full flower. It blooms very freely and has been a general favorite wherever exhibited.
Price \$3.00

NOKOMIS—1112. Variegated yellow. The base of the flower is white and canary yellow mixed together. Heavily striped and speckled with dark red. A very striking large flower. The plants are of a low growth and flowers stand high above the foliage.
Price \$3.00

NINIGRET—151. Rich dark red, clouded and striped much lighter. The petals taper abruptly to a sharp point which is twisted in a very attractive manner. A full, heavy flower of unusual quality.
Price \$3.00

OWEENEE—1117. Variegated cerise and white. This flower is of very delicate colorings, petals being fine and very numerous. They are splashed and clouded with light cerise and white. One of those very desirable light shades.
Price \$3.00

POCAHONTAS—69. Light cream yellow. This flower is very large with flat, broad petals except in the center. Petals are flushed and veined deep pink, possessing some of the colorings of the Geisha. A very free bloomer and in every way desirable.
Price \$3.00

POWHATAN—101. Dark crushed strawberry. This very large flower is another of unusually fine shading. While it has the colorings of the crushed strawberry, it also possesses a light tint of lavender and the free blooming qualities.
Price \$3.00

RED CLOUD—84. Rich deep carmine. This is a large, full flower of a solid color and is borne in abundance on a plant of high growth.
Price \$3.00

SAMOSSET—1007-1. Light yellow. Some of the petals this flower are slightly shaded with pink, while the whole flower is full and of the true Paeony type. Small curly petals on the face of this flower give it a very desirable effect. A very free blooming variety.
Price \$3.00

SQUANTO—102. The color of this dahlia is hard to describe on paper. It is of a reddish violet, growing more red at the base of petals. The flower is large and makes a very showy plant by its free blooming qualities.
Price \$3.00

UNCAS—147. Pure white. A beautiful pure white, somewhat resembling South Pole, but petals more curly and twisted. A very unique shaped, free blooming dahlia, and exceptionally desirable.
Price \$3.00

WADAWANNOCK—1034. Light coral. This is a large flower with broad, flat petals and with just enough twisting, curling petals in the center to give it a nice Paeony effect. This is an entirely new shade and one of those very effective and desirable colors seldom seen in the dahlia.
Price \$3.00

Price of the above, one each of the whole set, plants where bulbs cannot be supplied\$50.00

MIANTONOMI

GROUP NO. 2

ELECTA No. 77 White, heavily clouded cerise. This, immense, large, new paeony dahlia is a beauty beyond all doubt. It closely resembles Verna Thompson in color, but somewhat different in shape. A very full deep flower. Price \$3.00

MRS. ROCKWELL—1048. Deep rich cardinal. A large flower of an unusually rich color. This dahlia should be seen to be appreciated. The flowers are borne on good stems well above the foliage and are very showy and attractive. Price \$3.00

JEAN ANDERSON—1118. Salmon buff slightly clouded with deep yellow. The style of this flower is very unique with its small twisting petals around the center and the curly features of the large ones. One of the entirely new shades. Price \$3.00

ATTRACTION—1032. Light coral. A large flower and an entirely new color. A strong, thrifty grower, and one of the best and most attractive dahlias for cut flower purposes. Price \$2.00

AUTUMN—1017. Color, clear, light American Beauty. A large full flower with numerous petals which are quite pointed and twisted at tips. A very free bloomer and a most desirable flower. Price \$2.00

DELICATE LADY—46. Soft delicate light cream. This new dahlia is a beauty. It is of the cactus-paeony type and one the freest flowering dahlias in my collection. Price \$2.00

GOVERNOR GENERAL—99. Handsome light canary yellow faintly overspread with pink. Petals shading to sulphur yellow in center, and curled and twisted in fine shape. Price \$2.00

LEADING LADY—107. Back rows of petals are a beautiful light cerise and are tipped and veined white, while the petals of the balance of the flower are tipped cerise and clouded white to the base. A wonderfully attractive combination. Price \$2.00

LOVELINESS—51. White with about half of the petals bright cerise. There are heavy veins of white running through the whole length of petals. A most beautiful combination. Price \$2.00

NORA BELLE—18. Very bright yellow, heavily clouded cerise. Petals curl backward and very much twisted. Price \$2.00

OLD TRAVELER—1047. Color something on the shade of dark violet. A hard color to describe. Has been called a blue cerise. Large free bloomer. Price \$2.00

RUBY STONE—13. Bright velvety magenta. Petals slightly shaded brighter at base and heavily tipped white, making a beautiful combination. Price \$2.00

SULPHUR KING—52. Light sulphur yellow. Petals long, slim, and somewhat rolled and pointed. A slight shading of pink is blended through the petals. Small slim petals around the center a curled and twisted in an artistic manner. Price \$2.00

TANGO GIRL—122. A new shade blending to brownish orange, or tango and paradise. An extremely and entirely new color and admired by all. Price \$2.00

WHITE LADY—55. Pure silvery white. This new dahlia is of the cactus-paeony type and almost an exact duplicate of "Delicate Lady," except the color. Usually a bouquet of pure white dahlias are not effectual or particularly attractive, but this variety alone, or mixed with the "Delicate Lady," makes a most strikingly pleasing effect. Price \$2.00

Price, one each of group No. 2 . \$25.00

GROUP NO. 3

GENERAL JOHNSON No. 36. Velvety cardinal. Some petals have a stripe of yellow running whole length of them. Toward the last of the season the yellow shows more prominently. One of these flowers won 2nd prize in Hartford, Conn., 1913, as largest flower in the show. **Price \$2.00**

MAE JAMES—179. Light cerise. Tips of petals clouded white. Extremely beautiful. Reverse side of petals are nearly white clouded cerise. Very attractive flower. **Price \$2.00**

CORAL BEAUTY—1035. Clear coral. This wonderful new color for a dahlia attracted the attention of all who visited the garden. The petals of the flower are broad and heavy, and show well above the foliage. **Price \$2.00**

ANNIE LAURIE—60. Deep cerise. Petals slightly veined and clouded white. White at base of petals. A medium sized flower of a beautiful color and borne on long stems above the foliage. **Price \$1.00**

AMBER QUEEN—1120. Golden amber. Flowers are of good size and with

quite broad, flat petals. A most desirable dahlia of fine form. **Price \$1.00**

BACHELOR—1054. Jaconde is the exact shade of this beautiful dahlia. By some people it would be called purple. The curly, twisting feature of this dahlia is very pleasing. **Price \$1.00**

BALTIMORE BELLE—1110. Deep garnet flower of good size. Petals long and heavily tipped white. Very showy and attractive. **Price \$1.00**

DECORATION—1. A ring of canary yellow forms a sun-like center for this very striking flower. And, like the rays of a brilliant sun, the remainder of the petals spread out into a beautiful bright cerise pink, very finely veined with a dainty pink, almost white. A very delicate touch of white at the tips of the pointed petals adds a pleasing finish to this altogether handsome flower that I consider one of my most attractive new paeonies. **Price \$1.00**

FIREBIRD—1044. Bright scarlet. Large sized flower of a very desirable color and full form. One of the bright colors that attract everyone. **Price \$1.00**

FIRE GIRL—156. Bright scarlet with heavy circle around the center of bright canary yellow. Petals are rolled and quite slim, sharp pointed and tipped yellow. Very showy and attractive. I was awarded a first class certificate on this flower at N. Y. Horticultural Dahlia Show in 1914. **Price \$1.00**

JIM DANDY—117. Very rich velvety magenta. Base of petals are yellow and white, forming a circle $1\frac{1}{2}$ inches in diameter. The petals are sharp, pointed, and heavily tipped and veined with white. The brightest combination of colors imaginable. **Price \$1.00**

LEGION OF HONOR—1015. Dark maroon. Large flower of a rich velvety shade. Full and deep. Somewhat of the type of Dr. Peary. **Price \$1.00**

PRESCILLA—105. Ground color, dark American Beauty. Large, broad petals with sharp tips. Some of the petals are clouded dark maroon, while other petals are shaded to light cerise at tips. Some are thickly mottled white. Small center petals are curled and twisted in a unique manner. **Price \$1.00**

ROSE QUEEN—91. Rose and cerise, shading to white in center and more or less overspread with white. Closely resembles Mad. J. Coizard in color. **Price \$1.00**

SHOW GIRL—1006. Yellow and cerise. Base of petals yellow. Balance light cerise shading to white at tips. Two veins of white run lengthwise through petals. It is a profuse bloomer and flowers are borne on extra long stems. **Price \$1.00**

Price, one each of group No. 3 . \$15.00

ADDITIONAL NEW PAEONY-FLOWERED DAHLIAS

VERNA THOMPSON—1084. This new, giant, paeony-flowered dahlia, possesses the most beautiful colorings that can be imagined in a dahlia, being a light cerise and white blended together in such a manner that it makes the color scheme simply wonderful. The flowers are very large and are borne on long stems above the foliage. The plants are medium height, prolific, and have the desirable freeblooming qualities. Price, plants where bulbs cannot be supplied, each \$5.00

ACQUINAS—94. Cardinal. Large flower with a tint of white and yellow at base. A beautiful bright color. Price 50c

ALLBEA—92. Rich phlox. Very heavily clouded white at base of petals. Veins of white running through petals. Price 50c

AVENUE MAID—1040. Yellowish pink, center changing to a pinkish red at ends of petals. Large size and a lovely flower. Price 50c

BACHELOR GIRL—56. Jaconde, or a shade of light purple. Occasionally the flowers are clouded and veined white. This plant has beautiful foliage and the flowers are an attractive color. Price 50c

BEAUTIFUL—166. Light cerise. Petals bordered and tipped white. A medium sized flower and a free blooming variety. The flowers stand well above the foliage. Price 50c

DELICACY—153. Light cerise pink, clouded and heavily veined white. Medium sized flower, but very attractive and desirable. Price 50c

FLOWERY KING—1037. Purple cerise. Large flower with long, rolled petals, resembling somewhat a cactus-paeony. Blooms very freely. Price \$1.00

GOODYEAR—1114. Velvety deep cardinal. Medium sized flowers. Very desirable. Petals broad and flat with small twisting petals in center, giving it the desirable paeony style. Price 50c

ISABELLE—1003. Cerise. Petals shaded to yellow at base and curled and twisted around the center in a unique manner. A fine combination. Price \$1.00

JOHN HENRI—1121. Light velvety maroon. Petals very numerous and claw-shaped with small curly ones in center. Cactus-paeony type. A beautiful flower. Price 50c

JOHN WILLIAMS—1115. Salmon pink shading old gold at center. A large flower and very desirable color. Price \$1.00

KRAZY KATS—82. Deep carmine. Each petal heavily tipped white. Some of the petals are curled in a crazy manner. Price 50c

LADY LOVE—63. Beautiful shade of pink, slightly specked with white. A very striking favorite shade. Flowers are nearly a cactus-paeony type and make a beautiful cut flower decoration. Price 50c

LAVENDER JEWELL—72. Lavender. Petals rather slim and pointed and twisted around center. The long stems and beautiful color make this one of the best grown for cut flowers. Price 50c

MILADY—68. Very light garnet shading. Petals lighter at base, shading to dark violet at tips. Large, attractive flower. Price 50c

OLD GRISLEY—61. Crushed strawberry, cerise and yellow blended together about equally, but cerise and strawberry show more prominently. Petals quite slim and somewhat twisted.

Price 50c

PRINCESS OF PATCHES—1050. Light cardinal, medium sized flowers borne on long stems. Occasionally the flowers show from one to four white petals.

Price 50c

RED BANK—80. Color bright, light carmine. Petals heavy, and slightly twisted. Extra good.

Price 35c

RED ROVER—172. Dark cardinal. Each petal has the appearance of being thickly striped with a darker shade. Faint stripes of yellow are occasionally seen in this flower and the small curly petals in the center give it a fine appearance.

Price 75c

RICHNESS—159. Dark velvety magenta with veins of lighter shade lengthwise of the petals. A rich color that is very pleasing.

Price \$1.00

SALMON MAID—6. Crushed strawberry and dull salmon. Odd combination of colors. Low bushy plant and very free flowering.

Price 50c

SCARLET LADY—116. Bright deep scarlet. A medium flower of very changeable colors of scarlet and yellow. Fine stems and one of the best for cut flowers.

Price 50c

SCARLET RIBBON—58. Base of petals canary yellow forming a yellow circle, balance of petals light scarlet, slightly shading to orange. A very odd combination of colors, good sized flowers and very attractive.

Price 50c

SILVERINE—93. Very light silvery pink. A very delicate, fluffy flower. Some of them this season measured $6\frac{1}{2}$ inches in diameter. A perfect beauty.

Price \$1.50

STRAWBERRY—79. Crushed strawberry. Fair sized flower and a very unusual color. Center petals are nicely twisted, giving it a good paeony shape.

Price 50c

SUMMER—108. Beautiful canary yellow. A large, flat flower with broad petals. A fine color and very free flowering.

Price 50c

THE CAMELION—123. Deep ruby red, shading to dark cerise at tips. Flowers have broad, flat petals of changeable shades. All the shades are very rich and velvety. A fine flower.

Price 50c

THE PINK LADY—30. A lovely shade of clear pink. Flowers are medium size and borne on long stems. A fine cut flower variety.

Price 50c

WILLIAM TELL—22. Combination of light and dark pink. The center of the petal is heavily clouded canary yellow. The petals are long, slim, and twisted. Small petals around center quite curly. Good size and desirable color.

Price 50c

NEW SEMI-SINGLE DAHLIAS

So many beautiful dahlias for cut flower purposes are produced now of this type that it seems necessary to set apart a separate classification for this type of flower. The markings of this style of dahlia are so attractively beautiful that many people prefer them to the large double flowers for house and table decoration. Besides, their long stems make them exceptionally good for cutting.

ADELAIDA—10. Bright cerise red. Petals tipped with yellow and yellow around base with two narrow stripes of yellow through center.

Price 50c

ALEMEDA—44. Deep crimson magenta. Veined and shaded white. Lighter at base and tips of petals. Medium size flowers and fine for cutting.

Price 50c

ALGOMA—1049. Bright garnet. Extra large flowers and a beautiful bright color.

Price 50c

ALTADENA—145. Cerise and white, clouded and mixed together. After the colorings of Mosel. A fine specimen for cutting.

Price 50c

AROMAS—1075. Dark carmine. Very large flower and a beautiful color.

Price 50c

AUKUM—1073. Light pink. A very good cut flower dahlia of medium size and with free blooming qualities.

Price 50c

BODEGA—1095. Pure white. A large flower and waxy white.

Price 35c

BONNY DOON—1085. Dark red with yellow center. An extra large flower of the semi-single class.

Price 50c

BULAH—1102. White tinted pink. A large flower with occasional striping of lighter pink.

Price 35c

BUSTER BROWN—70. Beautiful shade of canary yellow. This is an immense large flower of unusual qualities. The flowers measure 7 to 8 inches in di-

ameter and have heavy, broad petals, slightly streaked with carmine and borne on extra long stems that are very stout. It is simply a wonderful flower.

Price \$1.00

GIANT NARCISSUS—137. A beautiful jaconde in color. A new style and shape dahlia. The first row of petals blooms out fully while the center petals stand out straight like a narcissus. The center blooms out a rich maroon. A very unusual flower.

Price \$1.00

SEARCHLIGHT—96. Bright fiery scarlet. Center surrounded by heavy canary yellow disc. The broad, flat petals are pointed and tipped yellow. The N. Y. Horticultural Society awarded me a first class certificate on this dahlia.

Price \$1.00

NEW SINGLE DAHLIAS

BLUSHING BOY—1096. Very dark maroon. Center of petals and tips pure white. Occasionally some of the petals come solid dark maroon. A striking combination.

Price 50c

COLOR CARD—1116. A dahlia of many colors and shades, having yellow, red, pink, and amber in very attractive shadings.

Price 75c

FANG DE CHARMER—1097. Clouded pink. This is the most peculiarly marked dahlia that has ever come under my observation. The tip of each petal is serrated in a diamond shape. At the base of the diamond are two fangs with sharp points, hence, the name "Charmer." One of the most profuse flowering, single dahlias in my collection.

Price 50c

JEWELL—118. A beautiful shade of pink. Broad, flat petals; long, branching stems; one of the finest of singles.

Price 50c

LOTUS GIRL—1099. Light lotus pink. An extra large flower of an unusual size. A beauty.

Price 25c

MAGNIFICENT—1007-2. Dark cerise with two veins of white running through the center of the petals. This is one of the largest and most perfect single dahlias grown. The petals are broad and flat, of a thick texture. The flowers are perfectly flat, and stand very erect on long, stout stems above the foliage. It is truly magnificent.

Price 50c

MOLLY LEE—1080. Very dark maroon. A very rich, velvety shade and an extra fine dahlia.

Price 25c

OX EYE—1086. Carmine with yellow base. Has the appearance of the ox eye.

Price 25c

POLLY—121. White flushed with pink. Tips of petals serrated. A good single.

Price 25c

PRINCE OF YELLOWS—142-2. Canary yellow. Petals, broad and flat. A very attractive dahlia.

Price 25c

RADIANCE—1014. Deep, rich magenta. Tipped white. One of the richest colors in the singles.

Price 50c

RADIANT CHARMING—161. Cerise, heavily veined and tipped white. A very large, single dahlia.

Price \$1.00

RED EAGLE—144. Deep cardinal. Solid color, of large size, and very free blooming flower.

Price 50c

SINGLE JANE—21. Deep, velvety magenta with a shading of white and yellow at base of petals and a blending of white at tips. A fine combination. Extra long stems.

Price 50c

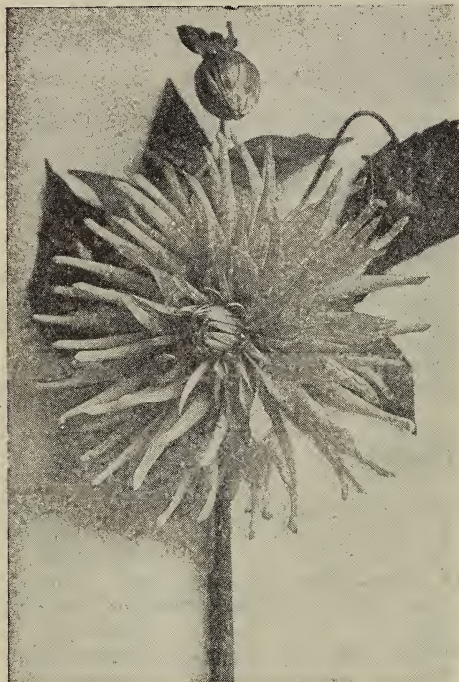

STAR OF THE EAST—1103. Magenta. Yellow at base, edges and tips clouded white.

Price 75c

WHITE ELEPHANT—29. Pure white. This extra large flower is a wonder. The first flowers on these plants in my fields measured $7\frac{1}{4}$ inches in diameter. It is an extra free flowering variety, and should be disbudded heavily to retain size.

Price 75c

CACTUS DAHLIAS

MANON

ADVANCE. Light red. This dahlia is one of the largest of the cactus varieties. The flowers are very full to the center and the best of form. Price 25c.

LAST BUT NOT LEAST

Why not buy your dahlias of the person who makes a specialty of dahlias and who grows them exclusively? Isn't that a point worth considering?

On the inside of the front cover is a partial view of one of my fields containing over four acres of dahlias. This picture alone should convince the most skeptical that they can grow dahlias successfully.

There are always some people who do not succeed in growing dahlias with their first season's experience, and are naturally very much disappointed. To those I wish to say that it is not due to a fault of mine or of the bulbs, but is due wholly to your method of cultivation, kind of soil, or weather conditions. Exercise a little patience and a whole lot of good common sense, and you will grow as nice dahlias as anyone.

Anyone who has a few feet of garden soil can grow dahlias. They are grown entirely in the open—you do not need to have a greenhouse to plant dahlias. Improve the looks of your yard by planting dahlias.

If you have good luck with your dahlias tell me so. I like to know that you are pleased. If you do not succeed be sure to tell me that, for there is a reason, and I may be able to advise you concerning it.

Note the following:

Do not plant your dahlias in the shade.

Stunted plants, thick and bushy on top, with no blossoms, are the result of dry weather.

I Guarantee every bulb I send out.

Do not wait for bulbs to sprout before planting. There is nothing like mother earth to sprout them. Plant them where you want them to grow.

The more flowers you cut the better dahlias bloom.

If too many buds appear, pinch them off.

Dahlias do well with me; they will with YOU, if you follow my instructions carefully, and above all, note what is said on another page with illustration in regard to watering.

The Dahlia, a Great Commercial Possibility

If you look back twenty-five or thirty years and consider the status of the Dahlia in America, what do you find? It was then, as it is now, a flower beloved by everybody and found in the gardens of the masses as well as the classes. Formerly, however, the richer people neglected it. This has changed. During the entire month of October, this year, the leading Fifth Avenue florists of New York featured Dahlias at times exclusively, and at most other times they predominated in their window displays. In fact, the rise of the DAHLIA TO POPULARITY HAS BEEN PHENOMENAL.

NOTE—Any person preferring to pay express charges themselves can have the largest size bulbs if they prefer them.

Dahlia Seed

It must be plainly borne in mind that Dahlia Seed rarely, if ever, brings the same color flower that the seed was taken from, but as this is the only way to obtain new varieties it is most interesting to try them.

All my Dahlia Seeds are guaranteed new, and put up in large packages. Try a package, and get some new varieties.

The frost which killed my dahlias about three weeks earlier than usual, prevented me from obtaining seed in sufficient quantities to offer separately.

STILLMAN'S DAHLIAS

CONCERNING THEIR SUPERIOR MERIT!

My dahlias were the admiration of all who were in attendance at the various shows at which I exhibited.

My display at Hartford, Conn., was the largest in the Floral Hall, and my new seedlings were especially noticeable, while the collarette dahlia was shown in a rare variety. My new seedling, the George L. Stillman, won first prize for the largest flower in the hall.

At the Boston Show my display was one of the most attractive spots in the hall, and of the 144 different blooms, 65 were new varieties which I am offering for sale to the public for the first time this season. My 12 Paeony-Flowered dahlias which won first prize, namely: Geisha, Gov. General, Pocahontas, Dr. Peary, Caecilia, Minnehaha, Miantonomi, Milady, Queen Esther, Osceola, John Williams, and Bertha Von Suttner, were indeed as wonderful an attraction as graced the Floral Hall. Buster Brown and Searchlight, two of my new seedlings, were also wonders at this same exhibit.

The New York Horticultural Society showed its appreciation of my exhibit by awarding me First Prize for the largest and best collection exhibited, and also a First Class Certificate on my new cactus dahlia, Geo. L. Stillman, of which I showed 20 blooms.

At the Connecticut Horticultural Show, besides several other prizes I received a special prize for an exhibit of my dahlias of most general merit in the hall.

At Syracuse, N. Y., Fair I won all the First Prizes for which I entered.

This is only speaking briefly to you of the real merit of my dahlias especially my new varieties just on the market.

WORTH REMEMBERING

Anyone who has a few feet of garden soil can grow Dahlias. You do not need a greenhouse—they grow in the open. Do not plant in shady place. Watering in dry weather helps, but does not fill the requirement for good rains. The more flowers cut the better Dahlias bloom. If too many buds pinch them off. The rapid rise in favor of the Dahlia makes it a great commercial possibility.

TESTIMONIALS

I have been greatly pleased and encouraged by many of my enthusiastic customers the past season. Extracts from a few of their letters follow:

July 17, 1914—A gentleman from Hilo, Hawaii, U. S. A., writes: "The dahlia bulbs arrived today O. K. No doubt about their not growing for they all have sprouts about 3 inches long. I wish to thank you for the extras you sent me.

The other bulbs have all grown beautifully and talk about dahlias,—it's something worth seeing."

May 13, 1914—A gentleman in San Francisco, Calif., writes: "I thank you very much for the dahlia "Mad. E. Poirier" which you sent as a replace. The second one is very full and healthy and I am quite sure will grow. I wish to say again that I appreciate your prompt attention and will remember your manner of treating customers when ordering next Spring, both for myself and friends."

May 18, 1914—A lady in Muscatine, Iowa, writes: "I have just set out 132 dahlia plants raised from the package of Paeony-Flowered dahlia seed purchased of you early in the season."

Jan. 29, 1914—A gentleman in Norton, Mass., writes: "Received your catalogue and enclose my order with check to cover. Your bulbs have always been the best that I have ever bought."

Oct. 11, 1914—A lady in Marysville, Calif., writes: "I wish to tell you that I received First Prize for the finest collection of dahlias in the dahlia show here October 6, 1914.

Mine are all from stock purchased from you. I entered about 50 varieties at the show, but I have about 115 varieties in all."

Oct. 31, 1914—A lady in Highland Park, Ky., writes: "Thinking you will be interested, I want to tell you that my dahlia seed from you were wonderful with one or two exceptions. I will certainly order more next year when my ground will be better."

June 6, 1914—A lady in Westport, Minn., writes: "Received my order today and appreciate the quick filling of the order and the dahlia sent gratis. I shall feel free to deal with you hereafter and will be glad to receive your catalogue each successive year."

July 31, 1914—A gentleman in Virginia City, Nevada, writes: "Please accept my testimonial to the fine dahlia bulbs that I received from you in April. On July 20th the Olympia was in bloom, flowers 5 inches in diameter. That's going some, is it not, for roots planted in May and growing on a mountain side 6200 feet high?

So I think dahlias blooming in July on a mountain side a record.

I did not lose one out of the 30 bought from you and all will soon be in bloom, and I want to congratulate you on the good roots you send out."

My 11, 1914—A lady from Shanghai, China, writes: "I should have written you before to tell you that the dahlias you sent came in good shape. Five of them have come up and I think the others probably will. I must thank you, too, for I know that you sent at least double the number, perhaps three times as many as I paid for. Thank you very much also for the beautiful catalogue with directions."
